

## College of Business

# MASTER OF SCIENCE IN FINANCE

Gain the leading-edge knowledge and skills necessary to succeed in today's complex world of finance

The Master of Science in Finance program equips participants with in-depth knowledge of the functions of finance. Specific objectives of the program are to instruct participants how to use the functions of finance to create and maximize value in commercial companies and societies; equip participants with current knowledge and techniques required for undertaking the functions of finance with effectiveness, efficiency, and professional standards; and, develop and promote strategic financial management skills and capabilities for professional success.

### Professional Outcomes

The program prepares ambitious graduates for successful management positions in banking, investment and asset management or a finance function in other non-financial corporations.

### Faculty

Program courses are taught by select professors from Zayed University who have earned doctorates, diverse international research experience, and superior teaching performance in graduate level programs.
